

MIXA/3 FITAIR® Slide rail set

Art. D47002 - D47001

The MIXA/3 FITAIR slide-rail set offers a series of functional technologically advanced solutions, distinguished by their elegant line. The design and innovative features of the shower are echoed by the special FLAT rod with adjustable brackets, capable of a flexible installation, if needed allows you to use your existing holes in the wall, assuring an easy replacement of the slide rail in your bathroom. Furthermore the lower bracket is equipped of a built-in water outlet. Super-slim design handshower and an extraordinarily large shower head, deliver a drenching all-round jet for an invigorating shower. Thanks to the brilliant Venturi technology, employed in the Bossini Mixa/3 Fitair handshower, the water consumption are easily reduced up to 50%, compared with a traditional handshower, still granting the maximum comfort. Mixed with air, the water released becomes softer or harder, depending on the spray mode – and your daily shower becomes a feast for the senses.
